

A vibrant, painterly illustration of two women with long dark hair, wearing shimmering sequined dresses and gold jewelry. They are smiling and embracing each other. The background is a colorful, abstract splash of paint in shades of blue, orange, and white. A dark blue semi-transparent rectangle is overlaid on the top half of the image, containing white text.

GINJAY EUROPE - OUR STORY

From an Idea to a Home

*How four Alkeys found one another, became friends,
and began building a European community for Ginny and Jayna.*

DaniCor

13 AUGUST 2026

Where It All Began

Every community begins with a feeling - the quiet realization that something beautiful deserves a place where it can be shared.

For GinJay Europe, that feeling began in early May 2026. Ginny Natnicha and Jayna Angelina had already touched hearts far beyond Thailand, and more and more European Alkeys were finding their way to them. Yet Europe still felt scattered across countries, languages, and timelines. There were fans everywhere, but there was no shared European home bringing them together.

Klaudia wanted to change that and brought DaniCor into the project.

They founded GinJay Europe with a simple hope: to create a welcoming space where European Alkeys could find news, celebrate milestones, share creativity, preserve memories, and feel connected - not only to Ginny and Jayna, but also to one another. The first public chapter began on 3 May 2026, when GinJay Europe reached out to European Alkeys with the message that something new was being built and that this was only the beginning.

Just a few days later, the account was already supporting its first GinJay trends and helping European fans navigate Thai and European time zones. What had started as an idea was becoming real.

Two Founders, One Shared Vision

Klaudia and DaniCor brought different creative strengths to GinJay Europe, but they shared the same vision.

Klaudia became the driving force behind social media, creating edits and posters while helping shape how GinJay Europe communicates across its platforms. Her work gives events, schedules, campaigns, and milestones a visual identity that fans can immediately recognize and share.

DaniCor brought digital art, website design, community work, and GirlLove news into the project. Through artwork and news coverage, she captures both the emotions behind GinJay's journey and the wider developments within the GirlLove world, while her community role keeps the focus on the people GinJay Europe was created for: the Alkeys who want to belong, participate, and connect.

Together, they began filling the new space with updates, event support, posters, art, edits, memories, and the sincere belief that Europe could become an important part of GinJay's growing international story.

When Two Became Four

As the project grew, so did the team.

BreE joined next, bringing social media, edits, blogs, and artwork. Her creativity added another voice and another perspective to the content, while her writing helped GinJay Europe move beyond simply reporting moments and begin reflecting on what those moments mean to fans.

Later, juste became the fourth member of the team. Contributing to social media as an edit and poster creator, GIF creator, and archivist, she helped turn fleeting scenes into memories that could be revisited again and again. Her work strengthened one of the promises at the heart of GinJay Europe: meaningful GinJay moments should not simply disappear into a fast-moving timeline.

The team now consists of four people with different skills but one shared purpose:

- **Klaudia** - social media, edits, and poster creation
- **BreE** - social media, edits, blogs, and artwork
- **DaniCor** - digital art, website design, community, and GirlLove news
- **juste** - social media, edits, poster creation, GIF creation, and archiving

Together, we create content that informs, celebrates, preserves, and connects. Every poster, edit, artwork, GIF, blog, update, and archived memory carries a part of the person who made it - but it also belongs to the larger story we are building together.

The Moments That Shaped Us

The first months of GinJay Europe moved quickly. We supported trend events, shared schedules adapted for European time zones, celebrated awards, followed campaigns, and collected the moments that made Alkeys laugh, cry, and fall for GinJay all over again.

We stood with the fandom during the KCL Awards, celebrated Ginny and Jayna's appearances and achievements, and preserved memories from moments such as Teayii's Talk and Pride LOVE GALAXY. We followed individual events for Ginny and Jayna, celebrated follower milestones, supported voting projects, and watched the excitement surrounding *Lunar Secret* continue to grow.

The road of the *Lunar Secret* pilot became especially meaningful to us. We shared its progress, encouraged Alkeys to keep watching and sharing, and eventually celebrated the moment it reached one million views - a milestone created by countless people supporting the same dream from different parts of the world.

We also watched Ginny and Jayna receive the Girls' Love Rising Star of the Year award at the 8th Nakarat Awards. Moments like this reminded us how much had happened in such a short time, and how special it was to witness their journey together with the community.

But GinJay Europe has never been only about the large events. Some of our favorite memories are the smallest ones: a look exchanged between Ginny and Jayna, a spontaneous touch, a funny reaction, a quiet sentence, or a moment that lasts only seconds but stays in our hearts much longer. These are the moments that become edits, artworks, GIFs, captions, and conversations - and they are often the moments that bring people closest together.

Building More Than a Timeline

As our ideas expanded, GinJay Europe grew beyond a single social media account.

We created a website designed as a digital home for news, art, edits, posters, events, timelines, and community memories. We also launched a dedicated Tumblr GIF archive so that high-quality GinJay moments could be collected, preserved, and discovered again instead of being lost in the speed of social media.

Each new part of the project came from the same question: how can we give European Alkeys a place that feels welcoming, useful, creative, and alive?

We are still learning the answer. GinJay Europe is growing with every new idea, every project, and every person who chooses to take part. We do not want to build a platform that only speaks to people. We want to build a community where people speak with one another, share what GinJay means to them, contribute their talents, and create memories together.

From a Team to a Friendship

Perhaps the most unexpected part of this journey is what happened behind the content.

GinJay Europe began as a team, but somewhere between planning posts, creating designs, discussing ideas, collecting memories, and celebrating GinJay, friendships began to grow. Four people who came together because of Ginny and Jayna discovered trust, laughter, support, and a sense of belonging with one another.

That friendship has become part of everything we create. It reminds us that fandom can be more than following artists or watching a series. It can introduce people who might never otherwise have met. It can cross borders and languages. It can create conversations, collaborations, safe spaces, and genuine connections.

This is what we hope GinJay Europe can become for others too.

Let GinJay Into Your Heart

Our journey is still at its beginning. We have dreams for a stronger European community, more shared projects, more preserved memories, and perhaps one day the chance to welcome Ginny and Jayna to Europe surrounded by the Alkeys who have been supporting them from afar.

Until then, we will continue creating. We will continue sharing news, making edits, designing posters, drawing artwork, writing blogs, creating GIFs, archiving memories, and celebrating every step of Ginny and Jayna's journey.

Most of all, we will continue trying to bring people together.

So this is our message to every Alkey who finds us:

Let GinJay into your heart. Let their story inspire you to create, support, and reach out to others. Share the moments that made you smile. Talk to the person on your timeline who loves the same little things you do. Turn admiration into creativity, and creativity into connection.

*Because GinJay Europe was never meant to be only our story.
It is a home we hope to build with all of you.
And this is only the beginning.*
